**AT YOUR REQUEST WE WILL GLADLY DISCUSS COST OF SERVICES
AND/OR PREPARE A WRITTEN ESTIMATE FOR RECOMMENDED PROCEDURES.
PROFESSIONAL FEES ARE DUE AT THE TIME SERVICES ARE RENDERED.
DEPOSITS MAY BE REQUIRED FOR PETS BEING ADMITTED.**

**We accept cash, checks drawn from a local bank, credit cards or payments thorough PayPal to vet@aevhs.com.
We charge a \$50 fee for any returned checks and a 50% cancellation fee of the cost of the exam if you cancel
within 24 hours of the appointment. New clients are required to have a credit card deposit. We are happy to
apply this amount toward a future rescheduled appointment in the event of a cancellation.**

I, the undersigned and owner of the following pet(s):

have had explained to me the recommended procedures along with the risks and elect to have Dr. Jaime Nalezny of
AEVHS proceed with examinations for these pet(s) of mine and the elected procedures of:

I understand that all pets that I wish to have groomed are required to have an examination to assess them for any
risks prior to elective procedures. If my pet is not found to be healthy at the time of the exam, Dr. Jaime Nalezny and
AEVHS may elect to forgo the procedure until my pet is healthier and more stable. Furthermore, I agree to not hold
Dr. Jaime Nalezny or AEVHS, PLLC liable for any unforeseen circumstances when handling my pet, providing
treatment, or observing any of the following animals on the next page(s) for veterinary treatment and care.

DETAILS

please include any concerns you have with your pet, including any problems encountered at previous veterinary examinations

Symptoms of Coronavirus (COVID-19)

Your symptoms can include the following:

Fever

If you have COVID-19, you may have mild (or no symptoms) to severe illness.

Symptoms can appear 2-14 days after you are exposed to the virus that causes COVID-19.

Cough

Seek medical attention immediately if you or someone you love has **emergency warning signs**, including:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion or not able to be woken
- Bluish lips or face

Shortness of breath

This list is not all inclusive. Please consult your medical provider for any other symptoms that are severe or concerning.

COVID-19 pandemic emergency veterinary treatment notice and acknowledgement of risk form

Our goal is to provide a safe environment for our patients and staff, and to advance the safety of our local community. This document provides information we ask you to acknowledge and understand regarding the COVID-19 virus.

The COVID-19 virus is a serious and highly contagious disease. The World Health Organization has classified it as a pandemic. You could contract COVID-19 from a variety of sources. Our practice wants to ensure you are aware of the additional risks of contracting COVID-19 while having your pet seen by us for care.

The COVID-19 virus has a long incubation period. You or your healthcare providers may have the virus and not show symptoms and yet still be highly contagious. Determining who is infected by COVID-19 is challenging and complicated due to limited availability of virus testing.

Due to the frequency and timing of visits by other clients with patients, the characteristics of the virus, and the characteristics of certain procedures, there is an elevated risk of you contracting the virus simply by being in an **enclosed room, vehicle, or office with others. Therefore we are only seeing patients in our vehicle for short periods of time, and allowing "curbside" drop off appointments with transition of patients into disinfected carriers for transport into our office or RV for treatment; or as season, weather and species and patients permit, an outdoor visit for care.** Reasons we must physically see patients include but are not limited to: the establishment of a legal and valid veterinary-client-patient relationship prior to instituting telemedicine, collecting samples, administering treatment, or to physically care for a patient during the COVID-19 pandemic.

Pursuant to statements and orders from the Center for Disease Control (CDC), the American Veterinary Medical Association (AVMA) and Governor Walz, elective, emergency and urgent treatment may be rendered based on the professional judgement of health care professionals.

By signing this document, I confirm that:

I have read the Notice above and understand and accept that there is an increased risk of contracting the COVID-19 virus by entering within the veterinary office, interacting with staff members, or with the treatment of my pet. I further confirm that I am seeking treatment for a condition that meets the criteria noted above and that ***I have not recently tested positive for Covid-19 or am I experiencing any symptoms of Covid-19 at this time.*** I understand and accept the additional risk of contracting COVID-19 from contact by interacting with the staff of AEVHS, or bringing my pet to the AEVHS office. I understand that ***I must wear a mask and will review the read me file*** for current policies and procedures. I acknowledge that I could contract the COVID-19 virus outside of the AEVHS office or staff of AEVHS in circumstances unrelated to my visit here.

You understand that the benefits of having your pet:
include the benefits of:

seen for,

I have read and understand the information stated above, and also that scheduled procedures may be canceled with very short notice should a *client, staff member, or patient test positive for, or experience signs or symptoms of, 19, the facility's health care capacity change, or COVID-19 caseloads in the community change or the veterinary community is ordered by executive order to change our operations.*

COVID-19 Client Disclosures

This client disclosure form seeks information from you that we must consider before making treatment decisions in the circumstance of the COVID-19 virus. **Please fill this out the NIGHT BEFORE OR MORNING OF of your appointment.**

A weak or compromised immune system (including, but not limited to, conditions like diabetes, asthma, COPD, cancer treatment, radiation, chemotherapy, and any prior or current disease or medical condition), can put you at greater risk for contracting COVID-19. Please disclose to us any condition that compromises your immune system and understand that we may ask you to consider rescheduling your pet's appointment or we may need to take extra precautions to see your pet after discussing any such conditions with us. *We reserve the right to cancel appointments at any time.*

It is also important that you disclose to this office any indication of having been exposed to COVID-19, or whether you have experienced any signs or symptoms associated with the COVID-19 virus. Please enter any possible exposures below, and the nature of these exposures in the last 14 days:

Do you have a fever or above normal temperature?	<input type="checkbox"/>	<input type="checkbox"/>
Have you experienced shortness of breath or had trouble breathing?	<input type="checkbox"/>	<input type="checkbox"/>
Do you have a dry cough?	<input type="checkbox"/>	<input type="checkbox"/>
Do you have a runny nose?	<input type="checkbox"/>	<input type="checkbox"/>
Have you recently lost or had a reduction in your sense of smell?	<input type="checkbox"/>	<input type="checkbox"/>
Do you have a sore throat?	<input type="checkbox"/>	<input type="checkbox"/>
Have you been in contact with someone who has tested positive for COVID-19?	<input type="checkbox"/>	<input type="checkbox"/>
Have you tested positive for COVID-19?	<input type="checkbox"/>	<input type="checkbox"/>
Have you been tested for COVID-19 and are awaiting results?	<input type="checkbox"/>	<input type="checkbox"/>
Have you traveled outside the United States by air or cruise ship in the past 14 days?	<input type="checkbox"/>	<input type="checkbox"/>
Have you traveled within the United States by air, bus or train within the past 14 days?	<input type="checkbox"/>	<input type="checkbox"/>

I fully understand and acknowledge the above information, risks and cautions regarding a compromised immune system and have disclosed to my provider any conditions in my health history which may result in a compromised immune system.

By signing this document, I acknowledge that the answers I have provided above are true and accurate.

FISH HISTORY INFORMATION

- 1) Your fish's name:
- 2) Your fish's species:
- 3) Your fish's sex:
- 4) Freshwater or marine?
- 5) Where did you obtain your fish?
 - a. How old was your fish when s/he was obtained?
 - b. Do you believe you know your fish's current age?
 - c. How long have you had your fish?
- 6) System
 - a. size in gallons:
 - b. Species in the system (all tanks sharing a common filter) affected:
 - c. Species not affected:
 - d. Any new intros to the tank, and if so- what species and when:
 - e. Number of fish in system
 - f. Average fish size in grams, cm:
 - g. Does your fish share a home with any other fish or other animals? If so, what species? If there are other animals in the home that are not within the aquaria, please list these as well and please describe any interactions allowed:
- 7) How long has your tank been set up
 - a. What is the temperature
 - b. What do you have to support life in the enclosure (i.e. filtration, oxygen, chillers, etc.)
- 8) What foods does your fish eat:
 - a. Trade/brand or Commercial names of prepared foods:
 - b. Supplements:
 - c. Fresh foods (please state type of food i.e. raspberries, not just "fruit"):
- 9) Do you provide any lighting or access to unfiltered sunlight outdoors in the summer?
- 10) Water source
 - a. Plumbing- metal or plastic or both?
 - b. Water appearance grossly (cloudy? Colored? Clear?)
 - c. History of water changes, routine maintenance, water quality testing and results historically (attach sheets if needed)
- 11) Water quality testing:
 - a. Dissolved oxygen in mg/L
 - b. Temp:
 - c. pH:
 - d. Ammonia in mg/L:
 - e. Nitrite in mg/L:
 - f. Chloride in mg/L:
 - g. Nitrate in mg/L:
 - h. Hardness in mg/L:
 - i. Alkalinity in mg/L:
 - j. Salinity in ppt:
 - k. *Please bring us current water samples*
- 12) Illness
 - a. Has your fish had any previous illnesses? If yes, please explain.
 - b. Any behavior changes noted along with concerns? If so, what?
 - c. When did your fish first show signs of illness?
 - d. When did the last fish show signs of illness?
 - e. Gill movement rate (normal/fast/slower)?
 - f. Appearance of the fish?
